

## ARTIFICIAL INTELLIGENCE (AI) USE DECLARATION FORM (STUDENTS)

This form documents the use of Artificial Intelligence (AI) tools, software, or platforms in the conceptualization, creation, analysis, or completion of any academic or professional research output. It aims to ensure ethical, transparent, and responsible use of AI in alignment with institutional research integrity standards.

### I. PERSONAL INFORMATION

|                                                                                                                                                         |                             |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|
| Name/s: <b>Del Rosario, Francesca Denise R.</b><br><b>Francisco, Elisha Jean P.</b><br><b>Fuerzas, Paul Bernard R.</b><br><b>Hewald III, Antonio S.</b> | Date: <b>April 30, 2026</b> |
| Program/Year/Section: <b>BSIT-GD 4<sup>th</sup> Year</b>                                                                                                |                             |
| Research Title:<br><b>AscendEd: Tech Lab Breakout – A Gamified Learning Simulation for Mastering Technical Skills</b>                                   |                             |

### II. DECLARATION OF AI USAGE

Please check all boxes that apply to your use of AI tools in this work:

☐ **Writing Assistance**

(Example: Grammar checking, sentence restructuring, writing suggestions, etc.)

☐ **Data Analysis and Interpretation**

(Example: Data visualization, trend analysis, statistical support, coding for content analysis, etc.)

☐ **Research Assistance**

(Example: Searching databases, identifying literature, summarizing sources, etc.)

☐ **Creative Content Generation**

(Example: Image creation, video generation, music composition, etc.)

☐ **Others (Please specify):** \_\_\_\_\_

**AI Tool(s) Used:** ChatGPT, Claude Sonnet 4-4.5(Anthropic), Gemini

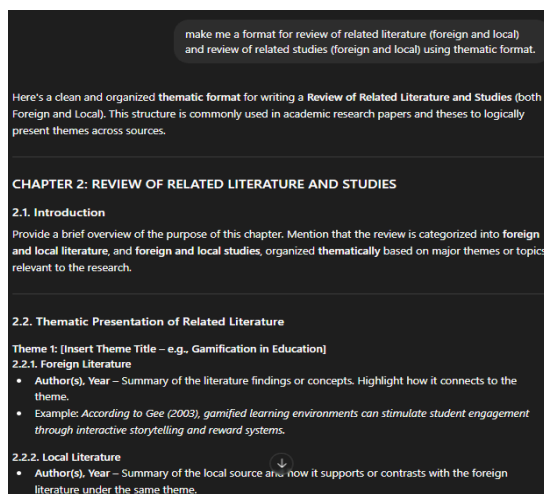

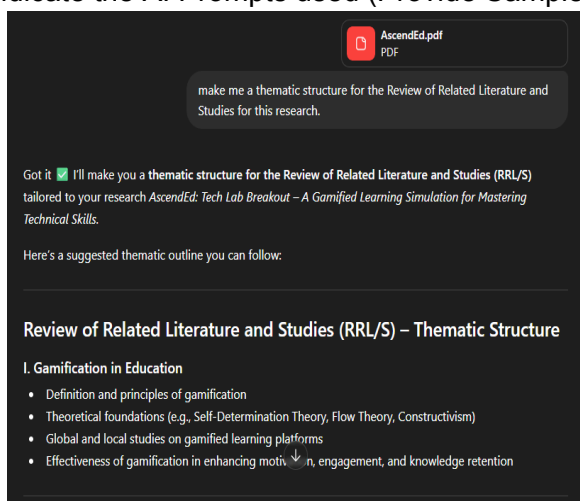

## Extent of Usage:

Briefly describe how AI was used in the context selected above:

- We used ChatGPT to help us create a simple thematic structure for our Review of Related Literature (RRL). It guided us in grouping related studies into clear categories instead of listing them randomly, which made our ideas easier to understand and organize.
- We used ChatGPT to create a simple outline for our animated cutscene. It helped us organize the flow of scenes and plan what will happen step by step, making it easier to visualize the story.
- We used Claude to help organize the system architecture and plan the user flow of AscendEd Tech Lab, making it easier to visualize and develop the platform efficiently.

Indicate the AI Prompts used (Provide Sample Screenshots):

make me an outline for our intro cutscene for AscendEd, where the student will enter the school and tech laboratory then he/she will sit on a chair , in front of a computer.

Here's a structured outline for your **intro cutscene** in *AscendEd: Tech Lab Breakout*, designed to establish mood, setting, and purpose before gameplay begins. The sequence aims to immerse the player into the cyberpunk-styled academic world of AscendEd.

**Intro Cutscene Outline: AscendEd – Tech Lab Breakout**

**Scene 1: Arrival at the Academy Gates**

- **Setting:** A futuristic cityscape fades in. Neon lights, hovering billboards, ambient synth music.
- **Camera:** Slowly pans down from a glowing skyline to the gates of *AscendEd Institute of Technology*.
- **Action:**
  - The **student avatar** (customizable or default) walks toward the massive school gates.
  - Holographic display welcomes: "Welcome, [Student Name], Initiating system access..."
- **Narration (Optional):**

↓

"In a world run by machines and data, those who master the systems... hold the keys to the future."

**#codebase** make another dashboard for the teachers and make them have these functions/functionalities.

1. Educators may design simulation-based tasks that foster self-directed learning, critical thinking, and student cooperation
2. Educators are also advised to use the platform's progress-tracking functionality to monitor skill development at each level and evaluate student performance using built-in analytics and charts.
3. add an account for the teacher and make the credentials like this.  
username: teacher  
password: teacher123

### 3. CONFIRMATION AND ACKNOWLEDGMENT

By signing this form, I/we affirm that:

- The AI tools listed above were used **ethically and transparently**.
- AI was used **only as a supportive aid** and **did not replace** the researcher's own intellectual effort, analysis, or authorship.
- Proper attribution and acknowledgment of AI-assisted components are included in the research work.
- I/we understand that **misuse or misrepresentation of AI use** may be subject to institutional academic integrity policies and disciplinary action.

**Researcher/s' Signature:**

**ELISHA JEAN FRANCISCO**  
*Project Manager*

**FRANCESCA DENISE DEL ROSARIO**  
*Research and Documentation Specialist*

**ANTONIO HEWALD III**  
*Lead Programmer*

**PAUL BERNARD FUERZAS**  
*Quality and Testing Specialist*

**Date:** April 30, 2026

**Noted:**

**ENGR. VAL PATRICK  
FABREGAS**  
*Research Adviser*

**MR. ALVIN DESTAJO**  
*Research Coordinator*

**MS. MARIBEL SANDAGON**  
*College Dean*

**Reviewed:**

**MS. MARIBEL SANDAGON**  
*Panel Chair*

  
**ENGR. ROBERTO MALITAO**  
*Panel Member 1*

  
**MR. HOMER FAVENIR**  
*Panel Member 2*

**Approved:**

**DR. MARK JOSHUA D. ROXAS, LPT**  
*Head, Research and Development Center*
